

STORMY WEATHER ALTERS PROGRAM OF MEAT PACKERS

Delegates Fail to Arrive on
Account of Delayed Trains.
Dinner Tomorrow.

(Continued from First Page.)
Government inspectors had performed a great work in undertaking to administer a difficult law. He said the packers themselves had aided in the wise administration of the inspection laws. "I feel also the need of proper legislation to provide for injured and incapacitated workmen," said President Allardice. "I feel deeply the faults of our present system in this respect. Our workmen who are injured in service and entitled to consideration should have it quickly. Too much delay now prevails in adjusting these matters. Some of our foreign friends are far ahead of us in this respect, distributing the burden over the community in general, and giving prompt help to the needy. A fault was found in the present system of insurance against liability, because it fails to grant the employee instant compensation."

Causes Suffering.
"The present system causes the employee much suffering and aggravates a feeling of antagonism against his employer, where harmony should prevail," he said.

President Allardice is optimistic regarding the future of the meat packing industry, particularly with reference to laws passed regarding it. "The public mind," he said, "is disturbed, it is easily inflamed, our people have been led to believe that no honesty exists in commercial circles; that the execution of the laws is lax; that our official family is contaminated. We have dangerous antagonists who seek to ride into public favor by howling loud and long about imaginary evils. In their excited utterances they condemn all business enterprises. They have no sympathy with those who hold to this opinion. It is an age of reform, and out of this public persecution of business will come the slowly advancing progress of the rule of reason and law and regulations which will uphold, not tear down."

The danger to the human race of tubercular infection from live stock was stated with great emphasis by Michael Ryan, chairman of the committee appointed to confer with Government officials. This danger constitutes the best reason for strenuous efforts to eradicate tuberculosis in live stock, he said. "If the general public could be awakened to the fact that bovine tuberculosis is constantly being transmitted to human beings through milk, butter, and other dairy products," said Mr. Ryan, "and that literally thousands of human beings are dying with tuberculosis in this country every year, there would be quick action by the Congress to eradicate the sources. It is a pitiful commentary on this condition of affairs."

that the larger proportion of victims are children less than five years old. The scientific work of the Department of Agriculture in determining a method of doing away with "sour" in ham was highly commended as one of the many instances of aid rendered the packing industry by Government scientists.

The report of Treasurer George Zehner was read at the close of the morning session.

The previous meetings of the packers have included demonstrations of meat packing, the sessions being held in cities where large packing houses are established. As a result of the transfer of the meeting to Washington, the program will be made up almost entirely of a discussion of existing laws, co-operation with Government officials, and desired legislation.

**Funeral Rites Held
For Mrs. Crampton**

The Rev. E. W. Meeks, of the Ryland M. E. Church, officiated at the funeral services for Mrs. Catherine Crampton, life-long resident of the District, which were held this afternoon at 2 o'clock at the family residence, 722 Seventh street southwest. Interment was in Congressional Cemetery.

**Audience Pleased by
The Arion Concert**

The concert numbers on the Arion Glee and Quartet program, the third in the season's series of the singing society, formed an enjoyable entertainment last night. Director Karl Holer is being commended today on the excellence of the concert. The chorus of the Arion, the Nordica Glee Club, by W. T. Holt, and the Schubert male quartet, were well received. The flute and clarinet duet by Edward S. Bergh and August Voight; bass solos by Thomas A. Murray, and tenor solos by Melville Hensey, shared in the honors.

Bad Blood

Is the cause of all humors, eruptions, boils, pimples, scrofulous sores, eczema or salt rheum, as well as of rheumatism, catarrh and other troubles. In the opinion of many that have taken it, the greatest blood remedy for all these troubles is

Hood's Sarsaparilla

Get it today in usual liquid form or chocolate tablets called Sarsatabs.

MINERS DEMAND WAGE INCREASE FROM COAL MEN

Delegates to Indianapolis
Convention Say There Is
No Danger of Strike.

INDIANAPOLIS, Ind., Jan. 15.—Wage increases from coal operators of the East, South, and Middle West will be demanded by the United Mine Workers of America. Delegates arriving here today for the annual convention opening tomorrow were practically unanimous in asserting their dissatisfaction with wage conditions in these sections. They expressed a belief that the operators would agree to increasing wages, and that there was no danger of a strike.

The miners will have their demands formulated by January 25, at which time sessions of the wage conference between the coal operators and the representatives of the miners' organization are scheduled to begin. Two hundred operators from West Virginia, Ohio, western Pennsylvania, and Illinois have been asked to attend the meeting. Ohio, West Virginia, and Pennsylvania operators have not yet agreed to the conference. Little interest is shown in the report of the balloting for officers, it being generally conceded that all the old officials have been re-elected, including John P. White, former president, over his opponent, former President Tom L. Lewis.

Gambler as Deputy.

NEW YORK, Jan. 15.—Among the latest deputy sheriffs sworn in in New York is Joseph H. Vendig, known in the country over as "Circular Joe," former bookkeeper and proprietor of famous gambling establishments.

DENNETT URGES HIGHER PAY FOR INTERIOR CLERKS

Commissioner, in Report,
Makes an Appeal for Land
Office Employees.

An urgent appeal for higher pay for the employees of the General Land Office of the Department of the Interior is made today in the annual report of Fred Dennett, commissioner of that office. "Not only are the higher grade employees underpaid," Commissioner Dennett declares, "but because of the inadequacy of the amount of salaries there is not sufficient inducement to the right class of men to enter the General Land Office. The policy is a poor one, and in my opinion the Government suffers materially."

A board of law review is asked by the commissioner. He wants this board given original jurisdiction upon all cases written by the various law clerks with the right of review vested in the commissioner and appeal to the Secretary.

A perjury law also is sought. "Owing to the non-existence of any common law covering certain crimes which the Federal courts can administer, many forms of false swearing seem to be not punishable by proceedings in these courts, and I earnestly recommend that this defect in the law be repaired," he says. Evils and hardships resulting from the practices of unscrupulous professional locators are often brought to the attention of his office, Mr. Dennett says. He recommends that a law be passed making such offenses punishable by fines up to \$300 or by imprisonment up to a year, or by both.

During the year 72,000 the year before.

NEWSBOY GUESTS AT THE ACADEMY REVEL IN MUSIC

Join in Choruses and Sing
and Whistle With
Soloists.

Last night was strictly newsboys' night at the Academy. When the announcement was made that the management of The Times would again co-operate with Tom Moore in giving the newbies of Washington another treat such as was served them last week at the Gayety, a wild scramble ensued among the juveniles to obtain the precious pasteboards admitting them to the big show.

From all parts of the town they came. Every section sent its quota, and long before the doors of the theater opened a line of anxious lads were waiting outside. Once inside, ensconced in front seats, they showed that it was possible to keep still when the point is strongly urged, although the tension was pretty strong. No outbreaks occurred, however, as twice during the show they were given opportunities to let off steam—first when Leonard Chick, who was singing illustrated songs, invited them to join with him in the chorus of "That Mysterious Rag"—and for awhile the paper merchants made the walk-in ring with their shrill voices. Again, during the second half of the concert, Mendonson and Kelly, in a comedy skit called for a whistling chorus, and the volume of sound let loose would have put a steam calliope to shame.

The efforts of The Times and Mr.

TO CURE A COLD IN ONE DAY
Take LAXATIVE BROMO Quinine Tablets.
Druggists refund money if it fails to cure.
E. W. GROVE'S signature is on each box.

Moore toward entertaining them made a decided hit with the boys if their applause for the different numbers on the program can be accepted as a criterion. Moving pictures showing the funeral cortege of the late Rear Admiral Robley D. Evans leaving All Souls Church and entering Arlington National Cemetery, and the happy youngsters deeply impressed the happy youngsters deeply, and not a sound was heard from their section of the house while they looked with respectful attention at the last rites for a hero of their country.

The Oremora, a musical number which closed the concert, brought forth enthusiastic acclamations from the boys, their ears being keen for the instrumental clarity, and long after the curtain had dropped upon the act they called for encores.

All in all it was a great show, and every newsboy left the theater singing the praises of The Times and Manager Tom Moore.

Rhinoceros Gets Tippy.
NEW YORK, Jan. 15.—Old Smiles, the two-horned rhinoceros in Central Park zoo, has a headache. He got fighting drunk on a quart of whiskey, given with quinine, to cure his cold.

**CASCARETS CLEANSE
LIVER AND BOWELS**

No Biliousness, Headache, Sick, Sour Stomach, Indigestion, Costed Tongue or Constipation.
Furred Tongue, Bad Taste, Indigestion, Ballow Skin, and Miserable Headaches come from a torpid liver and clogged bowels, which cause your stomach to become filled with undigested food, which scours and ferments like garbage in a still barrel. That's the first step to untold misery—indigestion, foul gases, bad breath, yellow skin, mental fears, everything that is horrible and nauseating. A Cascaret tonight will give you a thorough cleansing inside and straighten you out by morning. They work while you sleep—keep you feeling good for months. Millions of men and women take a Cascaret now and then to keep their stomach, liver, and bowels regulated, and never know a miserable moment. Don't forget the children—their little insides need a good, gentle cleansing, too.

SPECIAL NOTICES

WONDERFUL YET TRUE.
THAT THE VACUUM TREATMENT for the CURE of LOCOMOTOR ATAXIA, all forms of PARALYSIS, ASTHMA, INSOMNIA, all forms of RHEUMATISM, BRIGIT'S DISEASE, INDIGESTION; the SERIOUS AILMENTS of the SPINE, STOMACH, LUNGS, THROAT, URINARY ORGANS, and the AILMENTS that Baffle the SKILL of the PHYSICIAN, is the most wonderful curative DISCOVERY of the CENTURY. It restores the BLOOD CIRCULATION and the MOST VALUABLE EARTHLY POSSESSION of MANKIND—HEALTH. IT MAKES GOOD, AND YOU WELL. Its MIRACULOUS CURES have made it famous the world over.

It is induced by Emmons' Lysolins of All Schools in this country and Europe as the only method of treatment that is able to cope with the changed structural conditions met with in LOCOMOTOR ATAXIA, BRIGIT'S DISEASE, PARALYSIS, and all CHRONIC AILMENTS, and those DISORDERS that result from DEFICIENT NERVE and BLOOD CIRCULATION—AND WHAT DISEASE DOES NOT? PLEASE RECOLLECT THAT I am not after the cases your physician can cure. BUT am after those that have passed beyond his skill and medicine. Booklet, References, and Consultation at office or by mail free.

PROF. H. N. D. PARKER,
1022 9TH ST. N. W.

LADY ASSISTANT, HOURS 10 to 5.
